

# 2017 NHMF Awards Shortlisted: Most improved asset management service

National Housing  
Maintenance Forum

## One Vision adopt a new commercial approach to Asset Management

One Vision Housing's Asset Management team has developed a new commercial model. By bringing a repairs and maintenance provider, a planned works contractor, a waste management provider as well as a trade supplier in-house, it can now offer a complete service. This allows for total control over the quality, efficiency and cost without having to deal with external contractors. The financial benefits are passed on to the customers and the financial savings of £5.8m were reinvested in the business.

## Judges' comment

This is an interesting and innovative approach which has the potential to deliver significant savings.
